|--|------------|-------------|--|--|--|--|
| <b>Credit Key:</b>   |            |             | <b>(Cross Check = MUP or COPHP + Shared)</b> |  |  |  |
| MUP only   | 47         | 72          | (Cross Check should equal 72 or more)        |  |  |  |
| COPHP only   | 39         | 64          | (Cross Check should equal 63 or more)        |  |  |  |
| Shared   | 25         |             |  |  |  |  |
| <b>Total:</b>  | <b>111</b> |             |  |  |  |  |
| <b>KEY:</b>  |            |             |  |  |  |  |
| *required for MPH/MUP concurrent degree  |            |             |  |  |  |  |
| #URBDP course may be waived due to similar material being covered in the COPHP program. To waive a course, students must fill out the MUP Course Waiver form available here: <a href="http://urbdp.be.washington.edu/programs/mup-graduate-degree/forms/">http://urbdp.be.washington.edu/programs/mup-graduate-degree/forms/</a> . Even if the course is waived, the credit requirement must be fulfilled by taking another URBDP course(s) to equal the same number of credits as the waived course.  |            |             |  |  |  |  |
| ++MUP Restricted Elective course options are available here: <a href="http://urbdp.be.washington.edu/programs/mup-graduate-degree/forms/">http://urbdp.be.washington.edu/programs/mup-graduate-degree/forms/</a>   |            |             |  |  |  |  |
| ^Although counted as "shared" credits (and fulfilling MUP elective credits), students will register for HSERV 533, 592 and 595 in Winter of Year 2 through PCE, because these are fee-based courses and core course requirements of COPHP.   |            |             |  |  |  |  |
| **Although counted as "shared" credits, students will register for the HSERV 700 Thesis credits through the eMPH degree program for two reasons. First, because the concurrent agreement for this program requires students to register for "thesis" credits, and COPHP does not have specified thesis credits. Second, because registration through the fee-based eMPH structure (via PCE) ensures application of the appropriate tuition rate and transfer of revenue to COPHP.  |            |             |  |  |  |  |
|  |            |             |  |  |  |  |
|  |            |             |  |  |  |  |
| <b>Curriculum Requirement Notes Per Concurrent Degree Approval from Graduate School:</b>   |            |             |  |  |  |  |
| Students must also meet the degree requirements of each program (COPHP = 63; MUP = 72).  |            |             |  |  |  |  |
| All concurrent students will be required to complete three specific courses and a shared thesis that apply toward both sets of degree requirements.  |            |             |  |  |  |  |
| Any number of electives may be shared between the programs and applied towards both sets of degree requirements, provided 36 unique credits are applied toward each degree.  |            |             |  |  |  |  |
| Students will register for 9 <u>thesis</u> credits consisting of 4 credits from one program and 5 credits from the other.  |            |             |  |  |  |  |
| Thesis committee must include co-chairs from each program.   |            |             |  |  |  |  |
|  |            |             |  |  |  |  |
| <b>MUP Notes:</b>  |            |             |  |  |  |  |
| Students must fulfill the MUP Restricted Electives in the following categories: Planning Studio, Advanced Methods, Urban Economics/Urban Development, History/Theory/Ethics of Planning; which can be fulfilled by a number of different classes in various quarters. To view the courses that fulfill the MUP Restricted Electives, see: <a href="http://urbdp.be.washington.edu/programs/mup-graduate-degree/forms/">http://urbdp.be.washington.edu/programs/mup-graduate-degree/forms/</a>  |            |             |  |  |  |  |
| If possible, MUP recommends taking URBDP 512 Research Seminar in Autumn of the 3rd year. COPHP scheduling may prevent this. This should be determined before Autumn of the 2nd year and would change expenses for relevant quarters. Students may request to waive URBDP 512 on condition of the research methods they learn in the COPHP program. Conditions of waiving a course apply (see above)  |            |             |  |  |  |  |
| The required book for URBDP 512 course is: John Creswell, 2014. Research Design: Qualitative, Quantitative, and Mixed Method Approaches, 4 edition. Sage. (Required, and 5th edition ok, too)  |            |             |  |  |  |  |
|  |            |             |  |  |  |  |
| <b>Other Notes:</b>  |            |             |  |  |  |  |
| Per 5/13/16 email from Kate Lorenzen, PCE permits use of the COPHP per credit rate (versus flat quarterly rate) for quarter registrations that are below the "required" credit load (9 for 1st year courses; 10 for 2nd year courses).   |            |             |  |  |  |  |
|  |            |             |  |  |  |  |
| <b>Fee-based Concurrent Degree Tuition/Course Payment Policy:</b> If a student is a dual major (concurrently matriculated in a fee-based degree program and a tuition-based degree program), the student will (a) pay the fee-based rate (and register through UW Educational Outreach) for his/her fee-based degree courses, and (b) pay the state tuition rate (and register through MyUW) for his/her tuition-based courses. If a course satisfies requirements for both the fee-based and tuition-based degree, the student will pay the higher of the two degree rates. ( <i>Fee-based Degree Policy Notebook, 1/30/14, Page 26</i> ) |            |             |  |  |  |  |
